GENERAL INFO: Races are run at either a trot or a pace. Trot is where the horse's legs move diagonally. i.e. the near (left) fore and off (right) hind leg move together and the off fore and the near hind leg move together. At a pace both legs on the same side move together. If a horse breaks these gaits and canters or gallops where the two front legs move together and the two hind legs move together it has to drop out to the back of the field and resume the required gait failing which it will be disqualified. There are two types of start employed. **Mobile:** where an adapted vehicle with two swing gates attached moves along ahead of the runners until the gates are opened at the start position and the vehicle leaves the track. In these races horses start in rows according to number of runners. The first row will have between 6 and 9 runners. The balance of the runners will start in the second row. **Standing (Handicap) start:** depending on the conditions of the race there could be two rows of horses starting from the base position. Generally horses are handicapped according to number of races won and/or the value of races won. Handicapped runners will start in rows 5m, 10m, 20m etc (at intervals of 5m or 10m) further back. There can be up to five rows in a given race.
